

# Enhancements to Your Selling & Servicing Guide Experience

## Background

On April 5, we updated the web pages that house our *Selling & Servicing Guide* (Guides), resulting in a more seamless user experience. The website enhancements do not impact the content or layout of the Guides.

## How You Can Prepare

While the *Selling* and *Servicing Guide* home page URLs will remain the same, bookmarks to specific sections within each Guide, should be updated. All Guide sections will temporarily redirect to the relevant content to ensure a smooth transition, and these redirects will remain in place until January 2025. To ensure uninterrupted access to essential Guide resources, please update your bookmarked links as soon as possible.

## Benefits

Enjoy an enhanced user experience through improved content navigation and functions, featuring:

- Quick access to frequently used Guide resources.
- New, keyword-optimized search functionality.
- New search results page sortable by date or relevance for improved usability.
- Enhanced clickable breadcrumb trail to easily access related content.
- Access Guide topics in fewer clicks.

*We continuously strive to improve your experience. This update is part of our commitment to providing you with the best possible service and resources.*
